1. What is Circuit Society?

Announced in July of 2019, Circuit Society is the world's first cryptocurrency project that is specifically geared towards the competitive racing industry. As the world advanced towards its next financial evolution, Circuit Society has emerged with full capability of bridging the gap between the blockchain industry and the racing industry. This ultimately allowed Circuit Society to develop its official cryptocurrency, Circuit Platinum. This sparked the unique opportunity to provide the racing industry with a home within the cryptocurrency space.

1.1 Mission Statement

At Circuit Society, we understand the importance of highlighting the racing industry and providing it a home with the cryptocurrency space. Our prime mission is to continue advocating for the continual expansion of the racing industry and partnering with like-minded businesses and operations to aid in this endeavor. Through the utilization of Circuit Platinum, we have the opportunity of streamlining benefits and rewards to the racing community while achieving the ultimate racing experience. This is highlighted as Circuit Platinum offers automatic dividends, increased benefits, and unique perks to all members that own and utilize it.

1.2 Vision Statement

Through the continual dedication and devotion of our community and team members, we understand the full capability and potential of Circuit Society. As we have partnered with numerous competitive racing drivers throughout multiple racing genres, we have been presented the great opportunity of expanding outside of the United States. Moving forward, we will continue pursuing these positive relationships in addition to broadening the benefits that our community members will yield by owning and using Circuit Platinum.

2 Who is Circuit Society's Primary Audience?

As the world's first "all-in-one" cryptocurrency that is specifically geared towards the fans and supporters of competitive racing, it is imperative that we immerse ourselves within the industry. In addition to the racing audiences, we have established Circuit Society in a manner that provides benefits to audiences outside of the racing industry. With Circuit Platinum, we have gained great

interest from investors as they are presented the phenomenal opportunity to yield and benefit from our unique dividends along with the continual rise of the value of our official token.

2.1 Which Racing Genres are Supported by Circuit Society?

The brilliance of Circuit Society is its diversity within the competitive racing industry. As the world's first racing cryptocurrency project, it is imperative that every positive genre of competitive racing be recognized and supported. This highlights our ability to incentivize our fans throughout numerous genres and increase networking that influences positive growth.

As shown below, numerous competitive racing genres have been categorized that are currently being collaborated with along with future ambitions. This list includes, but is NOT limited to:

- Auto-Cross
- Boating
- Cycling
- Dragster
- Demolition Derby
- Drone
- Formula 1
- Formula 2
- Go-Kart
- Indy Car
- iRacing
- Monster Truck
- MotoGP
- Nascar
- Off-Road
- Street
- Supercross
- Top Fuel
- World Rally

3 What is the Circuit Platinum Token?

Circuit Platinum is one of the official cryptocurrency tokens of Circuit Society. As Circuit Society is an umbrella corporation, there are numerous cryptocurrency tokens that will be developed and implemented to tend to and secure the needs and wants of the community. Circuit Platinum is specifically developed to provide benefits and perks to the racing audiences and to streamline the greatest racing experience possible to our community. To ensure the longevity of Circuit Platinum, it has been developed on the Binance Smart Chain (BSC). The BSC was constructed by one of the world's largest cryptocurrency exchanges and allows for multiple active benefits within tokens developed on its platform. The ticker symbol that has been assigned to Circuit Platinum is \$CRCTP. The maximum supply of Circuit Platinum is 1 billion (1,000,000,000) tokens and will never surpass this amount at any time.

Circuit Platinum was developed to include multiple incentives that are attractive to all racing audiences and investors seeking a top-tier cryptocurrency project. Circuit Platinum offers 3% Binance USD rewards, 2% locked LP tokens that guarantees available liquidity is within the market to mitigate any slippage, and 1% to a marketing address to ensure the longevity of the project. This dividend program increases in benefit as the more transactions that take place the more frequent the reward being placed in the owner's wallet without any need for active use.

As shown below, 3.1 and 3.2 display the complete allocation of Circuit Platinum as it has been split into multiple categories. 3.3 showcases a more in-depth understanding for how these funds will be utilized by the executive members within Circuit Society to further expand the project. This complete breakdown takes place from 3.3.1 to 3.3.7.

3.1 Circuit Platinum Token Allocation Table

ALLOCATION	TOKEN AMOUNT	PERCENTAGE
Locked Tokens	500,000,000	50%
Initial Public Float	150,000,000	15%
Genesis Holder Reserve	120,000,000	12%
Sponsorship Opportunities	80,000,000	8%
Secured Private Investors	80,000,000	8%
Operational Expenses	40,000,000	4%
Community-Based Incentives	30,000,000	3%

3.2 Circuit Platinum Token Allocation Chart

3.3 Circuit Platinum Token Allocation Breakdown

To ensure full-transparency with our community members and investors, paragraphs 2.3.1 through 2.3.6. provide a more in-depth understanding for each allocation of Circuit Platinum. Each amount outside of the initial public float will be locked within specified addresses and held by the executive members of Circuit Society. These amounts will not be used for any reason outside of their appropriate and intended purpose and will be tracked within our blockchain.

3.3.1 Locked Tokens – 500,000,000 (50%)

This locked token allocation is for Circuit Platinum tokens that are not currently within the circulating supply but do contribute to the market capitalization of the project. Every 12 months, 5% (50,000,000 \$CRCTP) will be unlocked automatically and strictly added to the circulating supply. This newly released number of tokens will be contributed to the partnership/sponsorship allocation so we may ensure the continued advocacy and growth of the Circuit Society project.

3.3.2 Initial Public Float – 150,000,000 (15%)

The initial public float is indicated as the amount that will be initially offered to the public through an official and reputable cryptocurrency exchange. The initial exchange has been set to Pancakeswap as this exchange ensures that we have liquidity available. The amount will fluctuate as Circuit Platinum tokens are distributed properly throughout time. The public float contributes to the circulating supply and market capitalization of the Circuit Society project.

3.3.3 Genesis Holder Reserve – 120,000,000 (12%)

This allocation is reserved for the community members that are currently holding Circuit Elite (\$CRCTE) which was an earlier release to Circuit Platinum (\$CRCTP). Every holder of \$CRCTE will be provided a 1:1 swap to showcase our gratitude for their continued dedication.

3.3.4 Sponsorship Opportunities – 80,000,000 (8%)

As we continue to progress, it is imperative that we partner with like-minded organizations that understand the importance of what we offer to the racing industry along with sponsoring top-tier competitive racing drivers. This ensures that Circuit Society networks appropriately and we are well-equipped for the next opportunity that will allow our community and project to expand.

3.3.5 Secured Private Investors – 80,000,000 (8%)

To gain imperative capital to the expansion of Circuit Society, it is highly beneficial to provide an allocation to private investors. The great importance of this allocation amount is that with these private investors they are holding Circuit Platinum for the long-term as written within the contract upon the purchase of Circuit Platinum. This showcases confidence within the project and adds to the stability of the market. No single private investor will be offered more than 1% of this allocation (8,000,000 \$CRCTP). Price determination will take place once the interest has been confirmed and proper/legal channels have been confirmed/routed.

3.3.6 Operational Expenses – 40,000,000 (4%)

This allocation encompasses many of the obligations that we fulfilled prior to our public launch. These expenses include: infrastructural, managerial, and various revolving debts.

3.3.7 Community-Based Incentives – 30,000,000 (3%)

There are numerous benefits to the allocation of community-based incentives. As we move forward, marketing materials ensure that we advocate appropriately. This includes various merchandise for drivers to wear. Additionally, giveaways are placed within this allocation as giving back to the community is a very important stance of our project.

3.4 How will the Circuit Platinum Token be Utilized?

Circuit Platinum was developed to streamline the benefits and perks offered to the racing audiences and to ensure that the users of Circuit Platinum benefit greatly from owning and utilizing the cryptocurrency token. Additionally, it is imperative that community members and investors be shown the benefits and perks gained from owning and utilizing Circuit Platinum. Below are the numerous incentives that are highlighted for both of these audiences. This list includes, but is NOT limited to:

3.4.1 Utility Opportunities within the Racing Industry:

- Air Fare/Traveling Options
- Concessions/Refreshments
- Local Lodging Locations
- Luxury Rentals for Racing Experiences
- Merchandise/Vendors
- Premium/VIP Passes
- Racing Tickets for Entry into Various Venues
- Transportation to Racing Events

3.4.2 Benefits and Perks for our Community, Investors, and Traders:

- Automated Trading Liquidity
- Binance Smart Chain (BSC) Developed Token
- Decentralized Finance (DeFi)
- Diverse and Experienced Executive Team
- First Competitive Racing Cryptocurrency Project
- Full-Mobile Transaction Capability
- Numerous Opportunities to Utilize \$CRCTP at Initial launch
- Innovative Racing Cryptocurrency Utility
- Locked Liquidity to Ensure Full Trading Capability
- Lightning-Speed Transactions Times
- Progressive Dividends (Binance USD (\$BUSD) Rewards)
- Secured Numerous Prestigious Partners that Accept Circuit Platinum
- Verified Security Audit Completed with 100% compliance

4 Businesses Accepting Circuit Platinum

It is with great honor that we announce the prestigious businesses that are accepting Circuit Platinum as a means of transaction for their goods and services. Click the link below to be directed to the page that list all of these amazing businesses.

5 Circuit Society's Non-Fungible Tokens (NFT's)

It is imperative that we strive for continued innovation within our field of passion. To streamline benefits and rewards for our community, we have developed our own line of Non-Fungible Tokens (NFT's). We will release our custom-crafted NFT's within various racing seasons. This ensures that every NFT developed is personally tended to and provided the time necessary to ensure a polished product. Each NFT may include, but is NOT limited to:

- Assigned Vehicle Overall Statistics
- Encrypted Information ONLY Visible to the Owner of the NFT
- Professionally Crafted Graphics
- Rarity Levels Assigned to Each Vehicle
- Vehicle Specific Reported Statistics

Benefits and rewards for owning an official Circuit Society NFT include:

- Increased Value as the Project Expands
- Prestigious Status within the Circuit Society Community
- Re-Sell Ability with All Official NFT's
- Staking Reward Multiplier Depending on Rarity
- Utility within Professionally Developed Racing Video Game

Encrypted information ONLY seen by the NFT owner may include:

- Free Tickets to Various Racing Events
- Giveaways to include: Cryptocurrency Prizes, Free NFT's, Partner Discounts, Etc.
- Staking Multiplier Reward Code for Increased \$CRCTP Rewards

5.1 Non-Fungible Tokens (NFT's) Sale Allocation Breakdown

ALLOCATION	PERCENTAGE
Development Resources	30%
Global Marketing	25%
Partnership/Sponsorship	20%
Graphical Advancement	15%
Donation Reservation	10%

6 What are the Community Goals and Rewards?

Community is a key component of Circuit Society as we move forward. There is true power in numbers and it is essential that everyone work together so we may continue expanding exponentially. The possibility of our scope of influence is not limited to a single region but the entire world. No matter the specific role that an individual may fill within our community and project, we recognize that everyone has great importance.

To broadcast our devotion to our community, we have and will continue to implement numerous community reward initiatives that will reward each member whom participates. These events are designed to bring our community together in a positive light and to promote longevity. Each event that is hosted by Circuit Society will have a custom number of tokens set aside as rewards depending on the size of the agenda and the tasks that must be completed within the event.

7 Racing Collaboration and Sponsorship Protocol

As with our community; racing collaborations, partnerships, and sponsorships are an essential key to Circuit Society's continued expansion. We are continuously striving to establish strategic partnerships with like-minded businesses and companies that share our passion for competitive racing. Prior to our entering a contract with any racing establishment, we ensure the legitimacy.

It is imperative that we take the necessary precautions to ensure Circuit Society, or any of our community, investors, and partners, is at any unnecessary risk. We ultimately welcome all racing-related businesses and competitive racing drivers to contact us so we may discuss possible future collaboration and sponsorship. Our primary route for communication will be through our official e-mail at admin@circuit-society.io.
